The original design of the fair was to promote agricultural pursuits in such a manner that our children and wives could at all times give their presence and aid in the many departments of exhibition. This year, we are informed by our secretary, bids fair to be our best in very many respects. Many exhibitions for the public entertainment and amusement are engaged—including the ever popular flying horses.

Mr. Harry E. Mears will give daily exhibitions of speed, style and beauty by six horses driven in triple, double and single harness, all at the same time, making time of 3 minutes and under.

The Chincoteague or some other good brass band will be in attendance to enliven the occasion and all will go merry as a marriage bell. Many good people will be there, even some good ministers. What a time for social enjoyment and recreation!

What a feast for the many candidates now before the people! Friends and fellow citizens, this is to inform you that we have a place and plenty of room for you all—and that all are most cordially invited to come every day—25th, 26th, 27th and 28th of August, 1903.

Keller Fair.

The 26th fair of the E. S. Agricultural Fair Association will open next Tuesday and continue four days. In addition to the usual number of beautiful colts and young horses the high and fast steppers will be there in unusual numbers from every section of the two counties. The outlook for exhibits in the various departments was never better. The weather indications are at present, all that could be desired, in fact everything is most propitious for a big fair.

The grounds are being renovated by a new enclosure, new buildings, more seating capacity (free of charge) under the beautiful shade trees on the grounds. Ample confectionery, refreshment and boarding tent arrangements will be provided all over the grounds, inside and out, to accommodate all who may come. In other words this old fair is many-sided—during its long life the management has seen the need of meeting the demands of all sorts, sizes and conditions—even sick babies can be brought with safety for a days outing in the open air in the delightful shady grove. The older people are never more at home than when meeting old friends and acquaintances, met at no other time or place. The sporting class can nowhere more harmlessly test the speed and worth of their well trained, well groomed horses. And for courting people there is no place in the world so opportune. This fair, we are glad to know, is being called "Woman's Fair"—no higher compliment could be paid it, no greater praise bestowed.

The original design of the fair was to promote agricultural pursuits in such a manner that our children and wives could at all times give their presence and aid in the many departments of exhibition. This year, we are informed by our secretary, bids fair to be our best in very many respects.
